In order to conduct its business, services and duties, Pewsey Parish Council processes a wide range of data relating to its own operations and some which it handles on behalf of partners. In broad terms this data can be classified as:

- Data shared in the public arena about the services it offers, its mode of operations and other information it is required to make available to the public.
- Confidential commercially sensitive information about other organisations.
- Confidential information and data not yet in the public arena.

Pewsey Parish Council will adopt procedures and manage responsibly all data which it handles and will respect the confidentiality of both its own data and that belonging to partner organisations it works with and members of the public. In some cases, it will have contractual obligations towards confidential data, but in addition will have specific legal responsibilities for personal and sensitive information under data protection legislation.

This Policy will periodically be reviewed and revised if necessary in the light of experience, comments and any guidance received from the Information Commissioners Office (ICO).

The Council will be as transparent as possible where information is not personal or confidential and will work closely with the public community and voluntary organisations.

Protecting Confidential or Sensitive Information

Pewsey Parish Council recognises it must, at times, keep and process sensitive and personal information about employees and the public. It has therefore adopted this policy not only to meet its legal obligations but to ensure high standards.

The General Data Protection Regulations (GDPR) which became law on 25th May 2018 will seek to strike a balance between the rights of individuals and the, sometimes, competing interests of those such as the Council with legitimate reasons for using personal information.

The Policy is based on the premise that Personal Data must be:

- Processed fairly, lawfully and in a transparent manner in relation to the data subject.
- Collected for specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes.
- Adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed.
- Accurate and, where necessary, kept up to date.

- Kept in a form that permits identification of the data subjects for no longer than is necessary for the purposes for which the personal data is processed.
- Processed in a manner that ensures appropriate security of the personal data including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures.
